

WEBINAR | EXPLORING COMPLIANCE, REIMBURSEMENT AND PHYSICIAN COMPENSATION ISSUES TIED TO NONPHYSICIAN PRACTITIONERS AND SHARED CARE

Event: Exploring Compliance, Reimbursement and Physician Compensation Issues Tied to Nonphysician Practitioners and Shared Care

[06/23/2022 - 1:00 PM ET]

Synopsis:

Join Hall Render attorneys **Lori Wink** and **Joe Wolfe**, along with Advisory Services advisor **Delena Howard**, for this webinar. Our team will provide their perspectives on staffing opportunities, compliance, billing and physician compensation issues and trends in care models where services or a portion of the services are performed by nonphysician practitioners ("NPPs"). The use of NPPs has gained renewed attention and importance since CMS implemented new requirements for split/shared billing in the 2022 Medicare Physician Fee Schedule ("MPFS"). Under the new MPFS, split/shared visits are billed under the physician or NPP who provided the "substantive portion" of the services.

Topics will include opportunities and guardrails on the use of NPPs in care delivery models, the new 2022 MPFS guidance on split/shared billing, common physician compensation models for NPP supervision and potential impacts on how compensation is calculated under productivity-based compensation models. Our panelists will also discuss what practical steps health care providers can take now to mitigate risk.
